ENGINEERING

 MEMBER OF ORIZIO GROUP

SUSTAINABLE MAINTENANCE & ENGINEERING SOLUTIONS

Sabena Engineering is an international MRO provider offering sustainable maintenance and engineering solutions to the Commercial Aviation and Government/Defense markets.

Line & base maintenance

We support you from over 15 airports across Europe, the Middle East and Africa and in our own facilities.

- ✓ EASA/FAA approved, as well as many local approvals
- ✓ Line maintenance organization (up to and including A-checks) for home-based airlines & transiting airlines
- ✓ Phase-in/-out checks and special projects (cabin retrofit, minor modifications, etc.)
- ✓ 24/7 MCC, procurement, planning & technical support services
- ✓ Cabin repair & maintenance
- ✓ Base maintenance up to C Check and multiple for A320, A330ceo&neo and A340
- ✓ Aircraft Storage Programs

Aerostructure & Components

Preventive maintenance and repair of airframe structures and components. Spare parts and ship sets are available for standard exchanges or loans.

- ✓ Nacelles (CFMI, IAE, P&W and RR), Flight Controls & Structural, Sheet metal works & Forming, Composite (incl. in-house autoclave)
- ✓ Life Saving Equipment & Batteries
- ✓ Wheels & Brakes: Carbon and Steel Brakes
- ✓ Machining & Welding: Drilling, Milling, Turning, Adjusting, Cold working, Advanced welding techniques, Magnesium repair, etc.
- ✓ Painting: Painting rooms with hydrostatic

Defense

Heavy maintenance, aircraft upgrade & structural repair capability

- ✓ Capability list includes: C-130, NH-90, F16, A400M and other Boeing/Airbus military
- ✓ Design & construction of custom modifications (e.g., MEDEVAC container for C-130)
- ✓ Operational & technical assistance at remote locations
- ✓ Official Lockheed Martin Service Center

Engineering, Design & Manufacturing

Continuous Airworthiness Management (CAMO) services including internal capabilities to manufacture components according to maintenance needs.

- ✓ CAMO services & specialized engineering services
- ✓ Engine trend monitoring
- ✓ Aircraft assessment/inspection at remote locations
- ✓ Consulting & technical assistance
- ✓ Asset management assistance

Engine Services

Engine maintenance, repair and overhaul, with expertise covering the major engine types used by commercial aviation.

- ✓ Logistics services
- ✓ Inventory check, End of Lease check
- ✓ Engine preservation
- ✓ Engine storage, short – medium- long term
- ✓ Boroscope & NDT inspections
- ✓ Fan Blade inspection & change
- ✓ Modifications

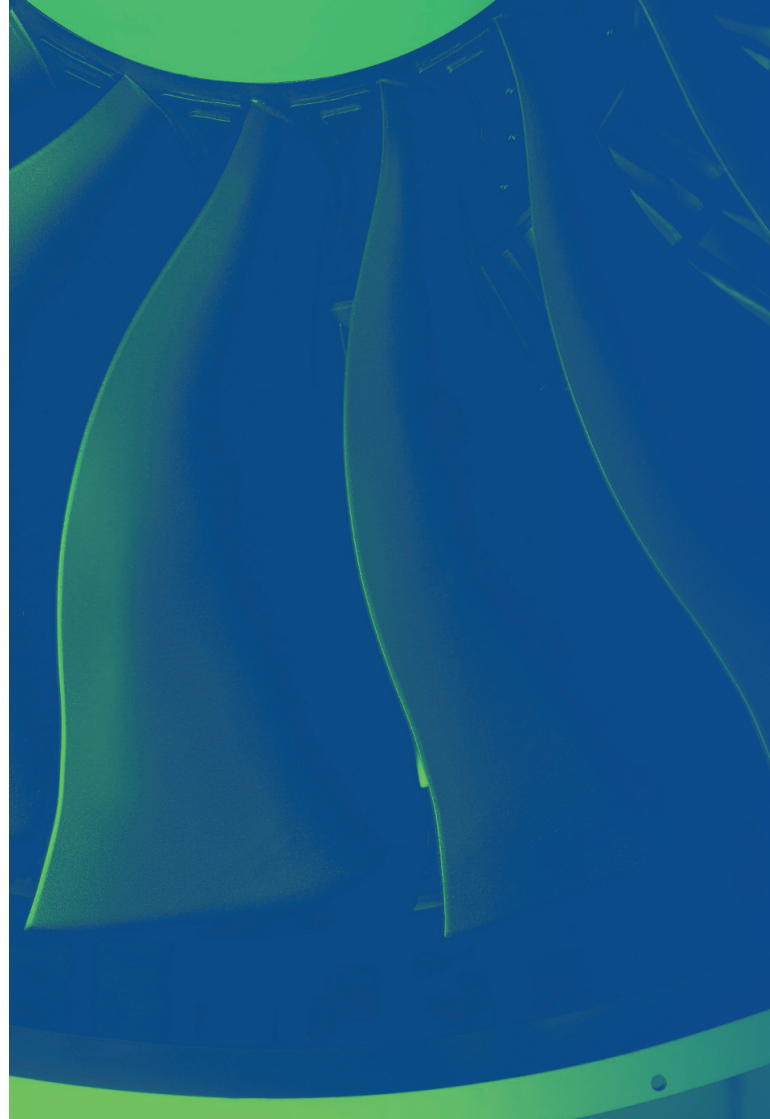

MCC 24/7 & GO-Team

Maintenance Control Center available and Go-Team at your service 24/7 wherever your aircraft is grounded. If you need an immediate response, contact us for a worryless intervention.
